Features of management

Management is goal oriented
Management is universal or pervasive
It is multidimensional
Management is continuous process
Management is flexible
Intangible force
Group activity

Goal oriented

An organisation should set specific goal for its smooth performance.Different organisations have different goals. Management helps to achieve these organisational goalS

Universal or pervasive

Management is applied in all types of organisations . all over world. But their working methods may be different.

Multidimensional

It include management work, management of people and management of operations of an organisation.

Continuous process

Because it start with planning and take corrective action at end. It leads to another planning of activities.

Group activity

Management includes team work and coordination of individual effort to attain organizational goal.

Flexible or dynamic

- Management is flexible. because it can adapt itself to the changing environment.

Intangible force

Management presence can be felt through the organisation functions.

Adiministritation V/S Management

Administration is the orderly application of routine procedures within the existing rules, regulations and policies.

Administration is the process of formulating policies, determining objectives, and making major decisions for an organization.

Whereas management is getting things done through people to achieve objectives.

Management has a certain amount of flexibility to adjust according to the needs of the situation.

Management is the process of implementing policies and achieving organizational objectives through planning, organizing, staffing, directing, coordinating, and controlling.

ADMINISTRATION	MANAGEMENT
1. Formulates policies	1. Implements policies
2. Determines objectives	2. Achieves objectives
3. Mainly concerned with WHAT is to be done	3. Mainly concerned with HOW it is to be done

10. Example:

Formulating a new health policy

10. Example:

Implementing the health policy at field level

Process, Effectiveness,and Efficiency

1. Management as a Process

Management is a continuous process of planning, organizing, staffing, directing, coordinating, reporting and controlling resources to achieve predetermined objectives.

It is continuous

It is goal-oriented

It involves coordination

It utilizes available resources

It is dynamic and universal

It involves decision-making

It aims at achieving organizational objectives

2. Effectiveness – ഫലപ്രാപ്തി

Effectiveness means achieving the desired objectives or goals.

3. Efficiency – കാര്യക്ഷമത

Efficiency means achieving the desired results with minimum possible resources, time, cost and effort.

👉 Efficiency = “Doing things right

Effectiveness = “Doing the right things”
Effectiveness = Achievement of Objectives

Efficiency = Output / Input

Management is an art and Science

As an Art:

- Existence of theoretical knowledge
- Personal application of skills
- Needs practice to achieve concrete Skills.
- Creative in his own approach and innovation
- Needs long period of experience in achieving Mastery

As a Science

- It has an organized body of knowledge which contains certain universal truths (Systematised body of knowledge)
- contains principles and theories developed through continuous observation research and experiment

- universal
- can be taught inside and outside class

Management is exercising knowledge through skill.

Management is an oldest art and youngest science

1. Management is a _____ process.

A) Static

B) Continuous

C) Temporary

D) Accidental

2. Which of the following is a feature of management?

A) It is a one-time activity

B) It is a continuous process

C) It requires no planning

D) It is unrelated to goals

3. Management is considered as a _____ activity.

A) Goal-oriented

B) Random

C) Unplanned

D) Individual

4. Management is required at _____ levels of an organisation.

A) Top level only

B) Middle level only

C) Lower level only

D) All levels

5. Which one is NOT a feature of management?

A) Goal-oriented

B) Continuous process

C) Universal

D) One-time activity

6. Management is called a universal activity because it is applicable to:

A) Business organisations only

B) Government organisations only

C) All types of organisations

D) Hospitals only

7. Management involves working with and through _____.

A) Machines only

B) People

C) Money only

D) Materials only

8. Which feature of management indicates that management is required in every type of organisation?

A) Dynamic nature

B) Universality

C) Intangibility

D) Continuity

9. Management is a _____ phenomenon.

A) Group

B) Individual

C) Mechanical

D) Physical

10. Management is called an intangible force because:

A) It cannot be seen directly

B) It has no objectives

C) It does not involve people

D) It is not continuous

11. Which of the following best describes the dynamic nature of management?

A) Management never changes

B) Management changes according to the environment

C) Management is always the same

D) Management is a one-time process

12. Management is concerned with achieving:

A) Personal goals only

B) Organisational goals

C) Political goals

D) Financial goals only

13. Management is a _____ process because it involves planning, organising, staffing, directing and controlling.

A) Social

B) Mechanical

C) Biological

D) Legal

14. Which of the following is NOT associated with the continuous nature of management?

A) Planning

B) Organising

C) Controlling

D) One-time decision

15. Management coordinates:

A) Only financial resources

B) Only human resources

C) Human and other organisational resources

D) Only material resources

16. The primary purpose of management is:

A) To increase paperwork

B) To achieve organisational objectives effectively and efficiently

C) To increase the number of employees

D) To avoid decision-making

17. Which feature shows that management adapts to changes in technology, society and environment?

A) Universality

B) Dynamic nature

C) Intangibility

D) Group activity

18. Management is considered a _____ activity because it involves a group of people working together.

A) Social

B) Individual

C) Physical

D) Personal

19. Which of the following is a correct combination of features of management?

A) Goal-oriented, continuous, universal

B) Temporary, accidental, individual

C) Static, personal, one-time

D) Unplanned, accidental, temporary

20. Which statement about management is INCORRECT?

A) Management is goal-oriented

B) Management is a continuous process

C) Management is universal

D) Management is required only in business organisations

Answer Key

- 2.B

- 16. B
- 17 . B
- 18. A
- 19. A
- 20 .D

Management is:
Goal-oriented – ലക്ഷ്യാധിഷ്ഠിതം
Continuous process – തുടർച്ചയായ പ്രക്രിയ
Universal – എല്ലാത്തരം organisations-ലും ആവശ്യമാണ്
Group activity – കൂട്ടായ പ്രവർത്തനം
Social process – സാമൂഹിക പ്രക്രിയ
Dynamic – മാറ്റങ്ങൾക്ക് അനുസരിച്ച് മാറുന്നു
Intangible – നേരിട്ട് കാണാൻ കഴിയാത്തത്
Multidimensional – പല dimensions ഉൾക്കൊള്ളുന്നത്
Coordination of resources – resources-നെ ഏകോപിപ്പിക്കുന്നു
Goal achievement through people – ആളുകളിലൂടെ organisational goals നേടുന്നു.

1. What is the main function of Administration?

A. Staffing

B. Policy formulation

C. Supervision

D. Controlling

2. Management is mainly concerned with:

A. Policy formulation
B. Policy implementation
C. Legislation
D. Constitution making

3. The question “What is to be done?” is mainly associated with:

A. Management

B. Supervision

C. Administration

D. Coordination

4. The question “How is it to be done?” is mainly associated with:

A. Administration

B. Management

C. Legislation

D. Policy making

5. Administration is generally associated with which level?

A. Lower level

B. Middle level

C. Top level

D. Field level only

6. Which of the following is NOT a major function of Management?

A. Planning

B. Organizing

C. Staffing

D. Constitution making

7. Administration is mainly concerned with:

A. Daily routine work only
B. Policies and objectives
C. Staff attendance only
D. Material distribution only

8. A Health Department formulates a new health policy. This is an example of:

A. Management
B. Supervision
C. Administration
D. Staffing

9. A Health Supervisor organizes and supervises staff to implement a government health policy at the field level. This is an example of:

A. Administration
B. Management
C. Legislation
D. Policy formulation

10. Which of the following statements is correct?

A. Administration mainly deals with policy implementation.
B. Management deals only with policy formulation.
C. Administration is mainly concerned with policy formulation, while Management is concerned with implementation.
D. Administration and Management have exactly the same functions in all theories.

Answer key

1. Management is considered an Art because it involves:

A. Only theoretical knowledge

B. Practical application of knowledge and skills

C. Only scientific experiments

D. Mathematical calculations

2. Which of the following is a characteristic of Management as an Art?

A. Systematised body of knowledge

B. Universal principles

C. Personal application of skills

D. Research and experimentation

3. Management as a Science is characterised by:

A. Creativity alone

B. Personal experience alone

C. Systematised body of knowledge

D. Individual talent only

4. Management principles are developed through:

A. Guesswork only

B. Observation, research and experimentation

C. Personal opinions only

D. Trial without observation

5. Which one is associated with Management as an Art?

A. Practice

B. Universal laws

C. Systematised knowledge

D. Scientific experimentation

6. Management skills are mainly developed through:

A. Memorisation

B. Practice and experience

C. Reading alone

D. Theoretical study alone

7. “Management is the exercise of knowledge through _____.”

A. Rules

B. Power

C. Skill

D. Authority

8. Which of the following is NOT a characteristic of Management as a Science?

A. Systematised body of knowledge

B. Principles and theories

C. Observation and research

D. Personal creativity alone

9. “Management is the oldest art and youngest science” means:

A. Management has no principles

B. Management practices are ancient, but management as a systematic science is relatively recent

C. Management is only an art

D. Management is only a science

10. Which combination best describes Management?

A. Knowledge + Authority

B. Science + Art

C. Power + Control

D. Planning + Budgeting

Answer Key

- 1. B
- 2 . C
- 3. C
- 4 . B
- 5.A
- 6 . B
- 7.C
- 8 D
- 9. B
- 10. B

Which of the following is the best expression of efficiency?

A. Output ÷ Input

B. Input ÷ Output

C. Goal ÷ Time

D. Cost ÷ Goal

- Ans:
- A .

A manager achieves the target but uses excessive resources. This situation indicates:

A. Efficient but ineffective

B. Effective but inefficient

C. Both efficient and effective

D. Neither effective nor efficient

Ans : B

Which pair is correctly matched?

A. Effectiveness – Optimum resource utilization

B. Efficiency – Achievement of objectives

C. Effectiveness – Goal achievement

D. Efficiency – Policy formulation

Ans: C

Efficiency is mainly concerned with:

A. Achievement of objectives only

B. Optimum utilization of resources

C. Formulation of policies

D. Recruitment of employees

Ans : B

Thank you
